POLITICAL INTELLIGENCE.

State Elections To-Day.

Five of the con-slaveholding central and Western States will hold their annual elections to day_viz: Pennsylvania, Obio, Indiana, Iowa and Min' esota.

In Pennsylvania the canvass he not been very ani ed, everag probably to the fact, that the offices to be miled are not considered of much importance when com-pared v ith that of Governor. There are but two tickets eswated for the offices of Auditor General and Surveyor ens ral, the republicans and what few there are of Know No chings having joined forces under the name of t'ae peo Vae's party. The democrats have nominated Richardson 1. Wright for Auditor General, and John Rowe for Surveyor General, and the opposition have present at Thomas E Oochran and William H. Keim respectively for the same offices. In 1858 the vote for Judge of fine Supreme

In Ohio more excitement has been exchibited, and the State, during the campaign, has had the honor of a visit from some of the most distinguished 'stump orators and Presidential aspirants of which the present generation can But most of the speeches wer e intended more to save the way for 1860 than they we're to exercise any inuence on the election which will trake place to-day. Probobly the politicians on both sides consider black repubheanism a fixed fact in Ohio, and it would be therefore useless to attempt either to crad! cate it or to exait it. The following State offices are to be filled, and the names of

Ittle bustle or excitement, in consequence of this not be-ing the year for the choosing of State officers. It is cond, however, that the office of Secretary of State wil be legally vacant after to-day. It appears that Daniel Mc-Dure, who was the incumbent, at the last October election was re-elected for the term of two
years from January, 1869. Shortly after the
election, and before the expiration of his
first term, Mr. McClure resigned the office, whereupon Gov. Willard appointed C. L. Dunham Secretary of State, to fill the unexpired term. The term for which Mr. Dunham was appointed has since expired, and another general elec-tion recurring this fall, it is held to have been the plain and positive duty of the Governor to have ordered an elec-Son to fill that office. This he has neglected to do, and a large portion of the people of the State seem resolved to vote for a new Secretary of State, without the sanction of the Governor. There are three candidates for the alleged vacant office:—Mr. James M. Hill appeals to the black revative of the opposite ranks, and Mr. Jesse L. The democrats have made a great effort during the campaign to rescue the State from black republican rule; and if their prognostications are worth anything, we shall be prepared to hear of a democratic victory to merrow. t year the vote for Secretary of State was as follows:-

Leaders from the friendly camps of almost every State volunteered their Priendly camps of almost every State volunteered their Bervices to enter the new ground and assist in producing a victory for the side they had espoused. The cause of al this anxiety in regard to Minnesota, laysjin the fact that two members of Congress are to be chosen at this election, and the political sentiments of those two Congressmen, me way or the other, would be very important in the next United States House of Representatives, in the event of the Presidential choice going before that body. Minnenota has been more thoroughly gone over by stump will be again for many years to come; but what will be we will not attempt to predict. AN UPROAR AMONG THE AMERICANS.-A bombshell was thrown into Chancery, O. U. A., in this city on the night of the 3d inst., by Lawrence Chapter, which appeared in the shape of three or four resolutions repudiating in part the action of the Know Nothing State Convention at Utica. The debate which sprang up on these resolutions is represented as being decidedly racy, and we only regret that we are not able to present it to the public. Some of the Chancellors who were delegates to the Utica Convention were charged with all sorts of political requeries and rascalities, and with endeavors not only to sell out the rump and fag end of Know Nothingism, but also to include in the sale the Order of United Americans, which has heretofore been The lever by which Know Nothingism has been worked. Without the O. U. A.'s the so-called American party was but a shell, with not enough strength or vitality in it to stand alone. And now that the real Americans are giving evidence of descring the old rotten hulk, the Know Nothing leaders despair even of their balance of power

Nay, he wept all about!—The ricking of a democratic rooster afterwards excited him, three him off his guard, and he swore he would be Jamned if he knew the man!

KENTUCKY DEMOCRACY DOWN ON DOUGLAS.—The degree eracy of Hickman county, Ky., have chosen anti-Dougla delegates to the State Convention, which will elect delegates to the Charleston Convention, and adopted, among

ones:—

are favorable to the nomination of Hon. James Guthrie as
the next democratic candidate for the Presidency. PERSONAL .- Thurlow Weed says that Booby Brooks and

his brother are both played out. AN OFFSET .- The New York Wablet, Roman Catholic, considerably excited against the American party for having nominated a State ticket at Utica. It proposes as an offset, that "Catholic and adopted citizen voters select for the recipients of their suffrages those cancidates on the republican and democratic lists who have been thrown aside by the Utica jugglers, and who are consequently un-contaminated by even the suspicion of Knew Nothing ap-

The Steamer Vanderbilt Ashore at Hell-THE PASSENGERS BROUGHT BACK TO THE CITY-DAMAGE OVER \$10,000.

About five o'clock last evening the steamer C. Vander-bilt, Captain D. B. Strugis, of the Stonington line, left her pier, No. 2 North river, loaded with a large quantity of freight and between two and three hundred passengers On rounding into the East river and proceeding on her trip, and when about opposite Ninety-first street, or Heligate, the sloop Holdbrock came running along under a tack for Gaylor's dock. The pilot of the steamer kept close up on channel, but somewhat crowded the sloop, and attempted to run across her bow, so as to run on the east of Flood Rock. The tide was at the time running at a terrible rate and the steamer coming in collision with the sloop Hold brock, caused her to slack for a moment, and before she could be rounded off she drifted and went well up on Flood

about the vessel, and the sloop having also manageable, her bow came full drive into the ladies cabin, carrying away the partition around the stairway and doing considerable damage to several berths. The bowsprit of the sloop was broken off, and considerable

damage was also done to her.

The passengers were for a moment or two terribly frightened, and one or two men were ready to jump over board, but Captain Sturgis was at once among them, and assured them that there was not the slightest danger.

assured them that there was not the slightest danger. The female passengers were by far the least alarmed, many at the time being seated on the upper deck.

Soon after the steamer had struck she was found to be leaking, and Capt. Sturgis concluded that he would have to light her up us as much as possible, so as to get her off at high tide. The tug Steens being near at hand was halied, and the passengers with their bagage conveyed to the city. Two other tugs were afterwards obtained, and the freight all conveyed from the Vanderbilt. This seemed to have a great effect, as she soon began to right, and hopes were entertained that she would be got off before morning.

Considerable damage has been done to the steamer, the wood work forward and aft having been broken, and the floor of the lower cabin somewhat damaged. All the materials of the berths, the carpets, &c., of the lower cabin were removed, as it was at one time feared that the vessel might leak to such an extent that it would be impossible to save anything in that case from bing damaged by water.

A schooner came running across the bow of the steamer

sel might leak to such an extent that it would be impossible to save anything in that case from bing damaged by water.

A schooner came running across the bow of the steamer at the time of the accident, but having on board a pilot she cleared and went on without being injured. The strong current running at Flood Rock drove the sloop Holdbrock close up to the stern of the steamer, and it was not until a tag could be procured that she could be got off and towed over to Gaylor's dock. The captain stated that he had just tacked for Ninety-first street, and nearing the steamer, they attempted to cross his bow instead of going astern; the result was that they came together, and the steamer ran bow up on the rocks; had the pilot of the steamer kept astern of his sloop, he claimed they would have had the full channel and cleared Heligate as usual. The damage to his vessel he calculates will amount to about \$100.

Many who saw the accident from shore state that it was purely accidental and could not have been avoided. Owing to the very rapid tide that flows at the Rock, it is impossible for large steamers like the Vanderbilt to make short turns, and the nearing of a sailing vessel is always attended with the greatest precaution on the part of the pilots. The damage done to the Vanderbilt and the expense which it will cost to repair her, cannot fall short of \$10,600, but it is presumed that not over a week will be required to replace her on the line. No damage was done to ther machinery.

It was reported that the Vanderbilt was got off at eleven o'clock and brought down to the dry dock.

THE WATER COMMISSIONERS AND THE COMMON COUNCIL—At a meeting of the Board of Aldermen hold last night, Alderman Dayton, Chairman of the Water Committee, submitted a lengthy report, in which he detailed the his-tory of the water works, from the time when the original tory of the water works, from the time when the original act authorizing their construction was passed. The report states that the Commissioners had no power to make contracts, but only to do certain acts definitely named, and that they were not city officers; that the act of 1867 guaranteed the miviolability of the original contract, and restricted the issue of bonds to \$4,200,000, except as the Common Council might agree to additions to the expenditures, and that when the city became interested in the Nassau Water Works the power of the Directors as such ceased, and they became mere agents of the city, with no power to make changes in the plan. The report went on the condemn the Commissioners for exacting water rents before the works were formally delivered to the city. The following resolutions were appended:—
Resolved, That the action of the Comptroller, in refusing to issue bonds and to accept the drafts of the Water Commissioners, under the act of April 16, 1859, is hereby approved.

Resolved, In the original of this Common Council, that

The Militia.—The ununiformed militia turned out yes-terday for inspection and drill, and being composed of those who prefer a day's marching to paying the militia tax of seventy-five cents, were not expected to be equipped in strict accordance with the law. There were several "regiments," each preceded by a solitary drumseveral "regiments," each preceded by a solitary drummer. The men themselves presented all sorts of an appearance. Some with good coats and others with tattered ones—some in cartmen's frocks and others with heavy overceats. Nearly all had muskets of some sort, while one or two bayonets and an occasional umbrella added variety to the whole. One of the regiments marched through the City Hall park to the great amusement of the spectators, some hundreds of whom had come up to the tax office to pay their commutation money in order to be relieved frem "drilling." It is usual on such occasions for the Mayor and Common Council to review the military, but this time circumstances prevented them from doing the usual honors.

STARWING ARTEAN —About one o'clock Studey morning.

an affray occurred on the corner of Van Brunt and Wi liam streets, in which about a dozen persons were en gaged. They were all more or less under the influence of liquor. The whole neighborhood was disturbed, and at liquor. The whole neighborhood was disturbed, and at last, having satisfied themselves, separated on the approach of the police. One of the number, named James Gallagher, was found to have been stabbed in three places about the breast. He was taken to the office of Dr. Malone, where his injuries were attended to, after which he was sent home. The wounds are severe, but not necessarily of adangerous character. It is not known which of the party inflicted the injuries. Four men, named Michael Moody, James Klernan, Thomas Welsh and John Halloran, were arrested and locked up in the Third district station house on suspicion of having participated in the affray.

CITY ORDINANCES REPORTED .- During the past six months (including only a part of October), 1,581 violations of ordinances have been reported to the Corporation Counsel-lor by the police. The keeper of the prison being absent, it was found impossible to pursue the furitive until it was too late. Mahoney made his way to New York in security, and was secreted here for several days before the police were aware of his presence. He was discovered in Maiden lane by officer Hamblin, who, knowing that he was a lugitlye, arrested him on the spot. The prisoner made a stout resistance, but was soon overpowered and conveyed to the lock-up. Mahoney is represented to be one of the most hardened and reckless boys in the city. He has been repeatedly arrested for offences committed here, and on one occasion he set fire to the House of Detention in White street, and set some three or four of the prisoners at liberty. In the confusion attending the fire he managed to make his own escape, but was soon afterwards recaptured in Chatham street, and after a desperate fight brought back to his old quarters.

Curiversalist) has had a house presented to him, chiefly by the contributions of a few wealthy men of his congregation. It is situated in Thirty-fifth street, near Fifth avenue, and cost \$24,000. The reverend gentleman, with his family, now occupies it, while his former residence in Eighth street, near Fifth avenue, has been advertised to let.

FIRE AT STATEN ISLAND .- A fire broke out yesterday FIRE AT STATES ISLAND.—A fire broke out yesterday morning, about 3:30 A. M., in the house adjoining the Quarantine ferry landing, owned and occupied by Mr. Wiener, as a saloon and dwelling, which, with its contents, was entirely destroyed. The flames communicated to the dwellings of D. Resgan and Matthew Carroll, leveling both to the ground. The former was a drinking soloon and dwelling, and the latter a dwelling only. The loss is estimated to be \$10,000. The ferry house, with the fences, gates, &c., were entirely destroyed.

CHAUNEM JOHNSON EN ROUTE FOR SING.—Yesterday.

afternoon officer Fitzmaurice, of the Second precinct arrived in the city with the notorious Chauncey Johnson who escaped about four months ago from Sing Sing State prison. He was detained for an hour or so at the Second ward station house, and at five o'clock, in the custody of the above officer, started for his old quarters, where he is now, no doubt, safely quartered.

Another Fight Between Heenan and Morrissey. TO THE EDITOR OF THE RERALD.

New York, Oct. 10, 1859.

I have been informed, through the medium of the pub-I have been informed, through the medium of the public press, and from those who were present and heard him, that Mr. Morrissey stated a few days since that he would fight any man in the world, and me in particular, for \$10,000. If this be indeed Mr. Morrissey's wish, I shall be most happy to accommodate him either before or after my contest with Sayers for the championship or England. I will pet up a forfeit to fight him for \$10,000 at the time and place that may be mutually agreed upon according to the rules of the prize ring.

JOHN C. HEENAN.

Signalizing the fules of the prize ring.

JOHN C. HEENAN.

Signalizing the Great Eastern.—We learn that the city government has arranged with Mr. Encch Moody, proprietor of the observatory on Munjoy Hill (whose telescope is about 250 feet above the mean level of the sea) to signalize the Great Eastern; and if the weather is clear she can be seen thirty miles off from that point. The national flags of the United States, England and France, will be displayed from the three flagstaffs on the observatory, and the American and English flags from the new City Hall. If she is seen at the observatory, 24 miles or more off, four black nalls will be displayed underthe English ensign; if 18 miles off, three balls; if 12 miles off, two balls, and if six miles or less, one ball. As soon as she is signalized, three guns from Munjoy Hill, and also from Deering's pasture, head of High street, will announce her appearance, and the fire alarm bells will be rung five minutes with a quick stroke. By these arrangements, should she make the land in the day time, an opportunity will be afforded for most of our citizens to witness her entrance into the harbor. As she approaches the harbor, salutes will be fired from Fort Freble, at the entrance of the harbor; namely, a national salute of thirty-three guns, (24-pounders.) as she appears off the lighthouse, and a royal salute when she is abreast the fort and entering the harbor. A salute of one hundred guns will also be fired from Munjoy Hill, in front of the Observatory, as she enters the harbor, and the bells of the city rung thirty minutes. Should she arrive on Sunday, no other signals will be given than the display of flags as above named; and the salute from Munjoy and ringing of bells will take place on Monday morning at sunrise.—Portland Argus, Oct. 6.

left New York Jan 24 for San Francisco, and made the passage out in 112 days (making two passages in exactly the sametime); returning, made the run from San Francisco in 85 days, and is again loading, to sail 22d inst, from pier 21 East River. Being great favorite for abort passages and good delivery of cargo, she loads quickly. Mesars 8 & Co are closing up the elegant clipper ship Napier at pier 27, to floats loading this week. The ships of this line sail twice a month and rate A1.

Miscellaneous.

Cupt McKee, of the bark Elf, arrived in Hampton Roads from Bahla, has our thanks for favors.

For Sar Francisco—Amongst the vessels loading for this port we notice the elegant clipper ship Good Hope, now about completing her cargo, in Messrs Wm T Coleman & Co's line. This is one of the most superb clippers on the berth at the present time, and as the ships of this line are never delayed in loading, she will undoubtedly fill up and go to sea this week. We understand that the famous clipper Reporter is now being put in applendid order, and will follow the Good Hope in the above popular line. She will shortly be at her berth, foot of Wall street, when those interested will have an opportunity of examining her beautiful model and thorough sea going qualities.
